Class 8 Trip to MDS

Students of class 8 had got a project work from vocation subject to visit somewhere and make a report. Then the students started to make a plan with their class teacher, Rupak Adhikari. Finally the date was fixed, it was on

Monday, 6th of Bhadra 2079.

All the students of class 8 were very excited and then we all went MDS (Multi- Development Service) by our school bus. We enjoyed the view, sang song and ate many things. We

reached there in about 25 minutes and we walked for around ten minutes.

All the students entered in MDS. The environment of MDS was very beautiful, friendly and pollution free. The surrounding of MDS was neat and clean and all the teachers were also friendly. Firstly, we went to one class, there was one teacher whose name was Chiran Pun. He guided us all the way to Agro farm. He showed us the old shed, different types of cows, vermin composting, birds farm, nursery, vegetable farming, milking machine, bio gas and so on. He was really friendly with us. He gave introduction about all the things we saw in agro farm.

After returning back from agro farm, we were given Mohi for refreshment. Then another teacher came and he took us to science lab and social lab. We saw different types of things there. There was shown the process of hydropower, satellite model, volcano eruption, structure of earth, phases of moon, quiz board, Mt. Everest, dinasorus, airport model and so on. We also saw those things that were used to be in our earth 200-300 years ago. Such as soli, dalo, nara, chapani, pathi, theki, juwa etc.

There were a lot of things mainly for children. Like slide, see-saw, swing, colombus etc. There was a big garden which contains all those things. Then after we just took some time on clicking photos and making videos. We played zipline too. It was really fun for us as we were playing it for the first time. Then we ate lunch which was pudding rice and fried potato with beans on it. It was really tasty and we all enjoyed it. After that, there was small photo session. We enjoyed that a lot. Then, we came back from there by buying different types of organic food from there. We came back by singing, dancing and enjoying in school bus.

All the things that we saw was just amazing. It can't be defined in words. After entering into MDS, we just felt like entering into next world. We learnt many new things from there. It was amazing.

School

My school, My school

Beautiful and cool

Our teachers are so nice

They give us knowledge and advice

In the morning we pray

Study there the whole day.

When the life of school ends,

We just gather our friends

I will only be a fool

If I miss my school.

We learn many things in school

Discipline and the rules

My school, My school

Beautiful and cool.

Progress is always good

Progress means to succeed in whatever we do. It is also known as the desired goal which we wish for. It is an ultimate goal in everyone life. Progress can be small or great but it brings happiness always. It is not so easy. We must go through rigorous and pain taking trails to achieve it. If we do our work honestly being punctual of time it is not so difficult to grab it. If we feel lazy to study, we will miss the opportunity to learn basic things in life.

Progress plays a very important role in our daily life. If we get success in our work we feel very happy but when we get fail in something we get upset and lose the hope to do progress. Most of the people give up when they get failure in their task. But few never give up and try to get success in their work.

Progress is a light which show the way to move in good path. If we do labour hard than progress will soon in our hand which makes us feel happy. It inspires us to do good work forever.

Thus, progress is very important in our life. If we want the luxurious life we have to do hard work and then we will get good things and success in our life.
