Students at Central Zoo

Excursion to Zoo

Excursion is the part of the information. So, we have taken the students to The Central Zoo to make the students refresh and entertain. We have taken students from Nursery to class two. There were 137 students from all classes and there were 10 teachers. At 10 am, we have started our journey. And nearly we

reached there at 11:30. Then at first, we pay for the tickets. And we took students inside the park. Almost all students were getting hungry so we gather students in one corner and gave them breakfast at 12:00 clock. Then we took them to see all the animals, birds, wild buffalos, etc. All the students are very excited when they are roaming around the zoo.

There is one saying that one picture is better than thousand words. So, they get more knowledge about both wild and domestic animals. It is all most 2: 00 clock so students are quite tired. So, we rested students and give them lunch. After having lunch, we make queue and took them to wash room. Then after we arrange line and come back to school.

Examination

Oh! It's an examination

A terrible operation.

Nightmares come

Beginning of lots of tensions

Syllabus given with lots of intention

Oh! It's an examination.

Teachers say study well or you will become fail

Papa says study well or you will be paid no games

Oh! It's an examination

What shall I do?

What shall I say?

Don't have much time to enjoy my games

Because of examination.

Slept at eleven

Woke up at five

I got a prize,

That was very nice.

It taught a lesson

Oh! It's an examination.

Being a beautiful place for trekking, picnic and hiking, it had many places to visit. Winter may traditionally be the favorite time to visit Godawari but monsoon isn't bad either. The greenery of Godawari soothes tired eyes, and the rain washes away the dust. We had a lot of fun clicking pictures and playing games like

badminton, football, music chair etc. We also found a place called the sources of Godawari where the water generates itself. We had a great time visiting Godawari. After coming from

the picnic I remembered everything that happened in the picnic and wrote this short article.

To sum up my article, I would like to tell that Godawari is a beautiful place and everyone should visit this cultural and beautiful place once in their life.

### An educational excursion to Ghale Gaun and Pokhara

Travelling to the new places is always a magnificent experience to everyone. It can certainly support people to be expunged of stress and anxiety and probably enjoy the fresh environment. We also went for a tour, a small break from our study days to refresh ourselves which was organized by our school.

We had visited many places but this this our tour was amazing. We went to Ghale gaun, Pokhara and so on. We initiated our that beautiful journey from 9<sup>th</sup> November,2022. First of all, on the very first day, we along with our Principal sir and other teachers gathered in the school early in the morning at 4:30 am. Then our principal sir took the attendance to ensure whether all the students are present or not. After this, we headed towards the bus and started our tour.

After travelling for hours, at around 9 am, we stopped our bus near cable car station of Manakamana temple to have meal. We enjoyed our meal a lot. Again, after one hour, we moved to our predominant destination that is Ghale gaun.

We reached Ghale gaun after travelling almost 8 hours by bus. The access to Ghale gaun was quite dangerous so that some of us had to get down from the bus and had to walk for few minutes. Despite, the dangerous road, we reached there

safely. After we reached there, the natives of Ghale gaun welcomed us with garland as well as tika. We had done a short travel to Ghale gaun, the next morning. The place is extremely fascinating, all the people were so hospitable. After a glance of the village, we packed our bags and shifted from that place to our next destination, Pokhara.

When we reached Pokhara, firstly we visited the Seti river which was a bit scary, however was charismatic. Then we tended to go to the museum of

Pokhara but unfortunately it was closed. Although, the closed museum disappointed us, we went

to the lakeside of Pokhara. Next day, we went to Kusma for sightseeing of the longest suspension bridge of Nepal. It was engrossing and it was foggy too. We spent about an hour there. Then in next day, we visited white stupa of Pokhara and again went to the lake side for boating. Then at last, we also visited Begnas lake which was so beautiful. This was sadly the last destination we had planned as we need to come back for our study.

The experience of our tour was definitely amazing. We lived our lives to the fullest. Away from home and family, along with friends and teachers, we were blissful and had a great time in each and every place we visited. What we think is our school should take students to educational excursion for rejuvenation and enjoyment.

## Picnic to Godawari

We all know that travelling is an amazing way to learn a lot of things in life. A lot of people around the world travel every year to many places. Even I have also visited many places. Recently, I visited Godawari, a beautiful place situated in Lalitpur district with my school friends and teachers.

On Friday, 2<sup>nd</sup> December 2022, we visited Godawari with the purpose of picnic and to learn something. In that picnic, our teacher hosted us. We started our journey at 7.30 am and we reached Godawari exactly at 9.30 am. We had our breakfast and we took the photographs of the beautiful scenario of the picnic spot.

Then we all went to visit one of the best places of Godawari called Botanical Garden. From the name of Godawari also we get to know the true importance of the place. We saw many varieties of flowers, orchids, butterflies, rare and unique kind of birds and several fast-flowing streams. In the botanical garden we also saw many

green houses. There we also find out information about the unseasonal plants and trees.
